POWER ELEVATING LEGREST (IN LINE) - FROM 1ST NOVEMBER 2007

Note
When you retrofit a powered legrest:

One powered legrest count as 2 actuators.
When you retrofit a powered legrest and you already have a powered option at your chair (powered tilit or recline, lift) you will have have 3 powered options or even more (depending on the options you have already in use). In case of this you have to order a QR MAC (see QR MAC) and the looms from the Legrest to the QR Mac (see actuator looms).
If you do not have a powered option at your chair so far it is enough to order the powered legrest plus the actuator looms to the motor controller. Looms from the legrest to the main controller / QR Mac please see actuator looms QC / QR / QR MAC.
